

BUILD AMERICA, BUY AMERICA ACT COMPLIANCE STATEMENT

June 2025

Pfannenberg has proudly manufactured in the United States for over twenty five (25) years. We are honored to announce our commitment and compliance with Build America, Buy America Act (BABAA).

This letter serves as a formal statement of compliance with the Build America, Buy America Act (BABAA) as required under Public Law 117-58, the Infrastructure Investment and Jobs Act (IIJA), and implementing guidance issued by the Office of Management and Budget (OMB Memorandum M-22-11 and any subsequent updates).

This letter also applies to projects funded under the Broadband Equity, Access, and Deployment (BEAD) Program, which requires adherence to BABAA for all covered infrastructure, materials, and manufactured products. This certification is provided in good faith, based on our current understanding of the law and our internal assessment of compliance.

BUILD AMERICA, BUY AMERICA COMPLIANT PRODUCTS

Product	Where it's Made	Item Number	Capacity	Voltage	Material	NEMA Type

More products will be added so please refer to <https://www.pfannenbergusa.com/thermal-management/babaa-build-america-buy-america/> for the most current list of BABAA complaint products.

While not all Pfannenberg thermal management products meet the strict definitions of BABAA compliance, many are still proudly Made in the USA with domestic and imported parts by American workers at our New York facility. This domestic manufacturing supports local jobs, ensures high quality, and delivers the fast lead times and service our infrastructure partners depend on.

Whether you need a BABAA-qualified solution or simply want the confidence of American-built reliability, Pfannenberg is ready to deliver.
